Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr/ Heald called to say the restriction sent 12/15/2004 referred to cancelled claims. Examiner checked and found there is a preliminary amendment in the case, and thus the restriction is in error.

Examiner will have application status changed to indicate that no response is due from applicant, and the restriction is cancelled. Examiner apologizes for the error.

When checking the case, examiner noticed it appears applicant filed a non-publication request, which is labelled "rescind nonpublication request" in the USPTO electronic system. Examiner suggests applicant call the patent service center to verify that the application publication status is correct. ..
